Okay.

What is the staff meeting at the mansion about this afternoon from 1:30-4:00?

Make up for the Monday staff meeting not having the Gov there

So mostly pipeline Mitigation and elections, I think

Do you still have that research on the mitigation fund? Bill Lane called To say the 401 certificate for the pipeline identified about 1,000,000 ft. Sq for riparian Buffer mitigation

Can you print six copies of the mitigation fund and deliver to Mansion in advance of 11:30? Gov has asked to meet then, on top of the 1:30

[www.cache.wral.com](http://www.cache.wral.com)

Let's do six copies of this bill as well

Wednesday 11:23 AM

Sounds good

Munashe, you may want to get going on the recitals. I've got some extra details on what Gov is looking to do but will debrief this PM

Will di

MM

Will do\*

Can you all see if The Pipeline has filed a FERC Document on its plans for NC?

Also see what the Wildlife Resources Commission statutory authority is to receive and spend private funds, gifts, or property

Yesterday 8:46 AM

Can you all look at the FERC rules and regulations to see what is required for environmental mitigation?
